

BX Rings for API 6BX Flanges

API Ring No	Class 2000psi	Class 3000psi	Class 5000psi	Class 10000psi	Class 15000psi	Class 20000psi
BX150				1.11/16"	1.11/16"	
BX151				1.13/16"	1.13/16"	1.13/16"
BX152				2.1/16"	2.1/16"	2.1/16"
BX153				2.9/16"	2.9/16"	2.9/16"
BX154				3.1/16"	3.1/16"	3.1/16"
BX155				4.1/16"	4.1/16"	4.1/16"
BX156				7.1/16"	7.1/16"	7.1/16"
BX157				9"	9"	
BX158				11"	11"	
BX159				13.5/8"		
BX160			13.5/8"			
BX161			16.3/4"			
BX162				16.3/4"		
BX163			18.3/4"			
BX164				18.3/4"		
BX165			21.1/4"			
BX166				21.1/4"		
BX167	26.3/4"					
BX168		26.3/4"				
BX169			5.1/8"			
BX170			6.5/8"			
BX171			8.9/16"			
BX172			11.5/32"			
BX303	30"	30"				

Notes

When the above Ring Numbers are Prefixed with an S, this Denotes that the Rings are suitable for Subsea Applications & Manufactured to API 17D.

BX Rings have One Pressure Relief Hole per Ring on a Centre Line Drilled Horizontally.

SBX Rings have an Additional Pressure Relief Hole Drilled from the Horizontal Hole to the Ring Bore. This is to prevent Pressure Lock when Connections are Made Up Underwater.
