

Alba Bolting Isolation Kits- Corrosion Protection for Stud bolts

Alba manufactured kits to provide Corrosion Protection for stud bolts an efficient and effective method to prevent corrosion on your bolting.

FEATURES OF OUR BOLTING ISOLATION KITS

- High integrity, fire safe Nomex Bolt sleeving – cut to standard or specified size
- Can be supplied with Mylar bolt sleeves – cut to standard or specified size
- Alba A-HC Washers – Hardened Coated Steel Washers with multi-layer dielectric coating
- Hardness of Washers – HRC-35-45
- Breakdown voltage - 2.97KV, ASTM D149-1997
- Dielectric properties – 200GΩ @ 1000 VDC
- Alba G10/G11 Isolation Washers also available

APPLICATIONS

- Dissimilar metal Bolt to flange connections to mitigate galvanic corrosion
- Flange protection against external corrosion
- Alba Mylar/G10 sleeving also available
- Supplied for all size and pressure classes:
 - ½ to 24" -RF and RTJ flanges
 - 1/2" to 3 1/2" Bolting
 - M10 to M45 Bolting
