

SALT WATER INSTALLATION TOOL

An innovative, multi-use and cost effective gasket insertion tool designed with safety and efficiency in mind. Smarter, but simple in design and application. The SWT gasket insertion tool's unique stainless steel clamp design is available for all gasket types and sizes, commonly but not limited to SBX, BX, R and R gaskets, IX and HX compact flange seal rings.

APPLICATION

The pre-set elevation arms position the gasket in the flange recess precisely, allowing confident mating of the flanges, even in poor visibility. The simple clamp mechanism allows ease of removal for re-use on multiple spool installations.

MATERIAL SPECIFICATION

The SWT gasket insertion tool is designed and manufactured in the UK from SAE 316 marine grade stainless steel.

Main body / Clamp arms-SAE 316 marine grade stainless steel

Threaded screw bolt Allen Screws and Thumb nuts-SAE 316 marine grade stainless steel

Jaw Gripper- Rubber composite
